

FUZZ OUT removes Hair Algae in the aquarium. FUZZ OUT removes all toxins, metals and odors in the water column while simultaneously providing bacteria that oxygenates the water column. FUZZ OUT aids in the removal of phosphates and reduces the buildup of algae and organics. FUZZ OUT cannot be regenerated and is to be disposed of once the product has been exhausted.

DIRECTIONS

Remove by hand all large patches of hair algae with the pumps off. Once completed, return aquarium to full operation. Place FUZZ OUT in a high flow area of the filter chamber. Do NOT Overdose. Product will begin working immediately. Please remove FUZZ OUT after two weeks of treatment and perform a 20% water change. Using reverse osmosis water is recommended. Repeat treatment if hair algae are still visible. Do not exceed two treatments per month.

WARNING

Use only for aquariums. Keep out of reach of children.

 **MAXIMUM CLARITY FAST**

FUZZ OUT

**ADVANCED ALL-IN-ONE
FILTER MEDIA + REMOVES HAIR ALGAE**

Filter Medium in Nylon Bag.
Treats up to 60 Gallons (227L)

NET WT 473ML (16oz)

FUZZ OUT is the ultimate all-in-one filtration media dedicated to the removal of hair algae. Our unique blend can be used in both fresh and saltwater aquariums of all sizes. FUZZ OUT is used to remove algae blooms while oxygenating aquarium water quickly and efficiently.

Our unique blend combines a high-grade phosphate resin and organic scavenger resins. FUZZ OUT works fast to remove toxins while keeping essential trace elements in balance. This process keeps aquariums clean, clear and algae free for months.
